Youthful skin from within

WHAT IS TBT?

TBT has been specially formulated to generate youthful skin - for beauty from within. It hydrates the skin causing a tighter texture, eliminates wrinkles and prevents premature ageing. The result is radiant, glowing skin.

TBT is non GMO, contains no additives and no preservatives. It provides a highly concentrated form of ceramosides and antioxidants. It is all natural, vegan and gluten free.

Ingredients: *Grape seed Extract, Melon Concentrate, Zinc citrate, Coated Vitamin C, Wheat Ceramosides, Vitamin A, Lysine, White Tea Extract*

HOW DOES IT WORK?

TBT consists of two main ingredients which have been clinically trialled:

Grape Seed Extract/Melon Concentrate with coated Vitamin C and Zinc

Grape seed extract helps improve the overall health and condition of the skin.

Zinc contributes to the maintenance of the skin and protects the cells from oxidative stress. Vitamin C, in its coated form, assists in the production of collagen of skin cells and blood vessels.

Wheat Ceramosides

Skin youth and hydration depend on key lipids known as ceramosides. As we age, the skin loses these lipids resulting in dry, itchy, lack lustre skin and wrinkles. Replacing these lost ceramosides orally produces a clinically studied moisturising and anti-ageing effect and will leave you with glowing, healthy, radiant and elastic skin.

HOW TO TAKE TBT

The usual dose is one TBT tablet twice daily. Swallow the tablets whole with a full glass of water before or after meals.
